

Dear Parents/Guardians,

This summer we will be doing a math calendar challenge. Your child has worked so hard this year and gained so much knowledge. We would like to make sure that that knowledge **sticks**. I have put together a math calendar for the months of June and July. All your child has to do is complete the activities at their own pace. A recording sheet is included for them to record their answers. **Parents need to initial each box on the calendar.**

If they complete the monthly challenge they will receive a prize. The prize could be, but not limited to, a popsicle party, an outside lunch picnic, a prize from a treasure box, special school privileges, etc. **There will be awards for having one completed calendar and extra rewards for both!** You can help your child retain the skills that s/he had learned by encouraging him/her to complete the attached calendars. Checking to make sure the work is correct would be great too 😊

Your child may return their calendars at the beginning of the new school year. Thank you for your support in your child's education. It makes a HUGE difference.

Wishing you a safe and relaxing summer!!
