Dear Parents/Guardians,

With the increase in COVID-19 numbers and need to make sure we are timely with our communication; we are asking parents to use an online form to report a positive student and we will adjust how we communicate with you regarding a positive COVID-19 case on campus.

To notify us of your child's positive COVID-19 test result we are requesting that you complete the Optional Positive Student Reporting Form located here: <https://forms.office.com/Pages/ResponsePage.aspx?id=V9CzsxL8P0-S9HK-boRDUdd7PTxJF7NMpeGQuOXX5S5UOURZS1gyRERDN1pUOFZPOVFMWkhRNTdCSy4u> However, should you feel you need to discuss your child's COVID-19 scenario in detail, please feel free to bypass the form and call the District COVID Support Team at 904-547-8230.

When we receive information regarding a positive student, we will communicate to **all** parents in the classroom that there has been a positive case in your child's class. In the past, we have only communicated to close contacts. By making this adjustment, we can notify parents faster and more efficiently.

We continue to ask you to monitor your child for symptoms and keep them home if they are not well. We want students to be in school learning and we also want children healthy and safe. We are in this together and will continue to work together to navigate this new normal.

Thank you for your patience and understanding. If you have any questions, please call 904-547-8230 for further clarification.

Sincerely,

SJCSD Administration

IMPORTANT! Parent Consent Survey

<https://www.stjohns.k12.fl.us/parent-consent-form/>

Parents, please complete the Parental Consent Form for your child/children. Parental consent allows the student to receive health services from the school nurse while at school, to include care and treatment for illness and injury. **This includes giving medication approved to be administered at school.** This DOES NOT

AUTHORIZE: Invasive screening or procedure (COVID-19 testing, blood draw, vaccinations, etc.), preventative health care, medication administration, mental health counseling, therapy (physical therapy, occupational therapy, etc.), or other services that have traditionally required specific direction and consent (administration of medication, medical procedures, medical management of chronic health conditions, etc.).

FAQ and Related Information

1. What services does the requested parental consent cover?
 - The services traditionally provided by St. Johns County school nurses, including first aid, nursing assessment, health appraisal, meeting emergency health needs, nutrition assessment, referral of students to appropriate health treatment, health counseling and emergency treatment.
2. What services are not covered by the requested consent?
 - Invasive screening or procedure (COVID-19 testing, blood draw, vaccinations, etc.)
 - Preventative health care
 - Medication administration
 - Mental health counseling
 - Therapy (physical therapy, occupational therapy, etc.)
 - Other services that have traditionally required specific direction and consent (administration of medication, medical procedures, medical management of chronic health conditions, etc.)
3. Why require a consent for the school nurse and school clinic now?
 - The District is requesting the consent at this time to comply with the Parents' Bill of Right as interpreted by the Florida Department of Health.
4. Will students receive emergency treatment if parents decline to sign the release?
 - Yes. In the event of a medical emergency, school nurses and staff will respond appropriately as necessary to protect the student's health and safety given the circumstances of the emergency. The school will contact the parents, or in their absence, the student's emergency contacts on file with the school so that they can make the necessary care and treatment decisions.
